- 1) employee withholding – OASDI = 6.2%; Medicare = 1.45% (7.65% total)
- 2) employer match – OASDI = 6.2%; Medicare = 1.45% (7.65% total)
- 3) total FICA/SECA contribution = 15.3%

All churches shall be in compliance with State and Federal reporting and income tax with-holding laws. All lay and ministerial employee wages earned will be reported on W2's as wages, Social Security wages, Medicare wages, and state/local wages as applicable. For more info, see "Tax & Reporting Procedures for Congregations", www.pbusa.org.

B. Benefits

1) **Lay employees** are covered by the Federal Insurance Contributions Act (FICA) which covers Old-Age, Survivors, and Disability Insurance (OASDI) and Medicare contributions. Churches must withhold from each employee's gross pay amount a total of 7.65% (6.2% for OASDI and 1.45% for Medicare) plus applicable Federal and State Income Tax. The church matches the 6.2% and 1.45%, for a total of 15.3%. These amounts must be set aside (until the end of the month or quarter), depending on church federal deposit requirements, and remitted to the U.S. Treasury, using Form 941 for reporting purposes. In California, State Personal Income Tax (PIT) is remitted to the State of California Employment Development Department (EDD) on a timely basis, using their website at - Employer Services Online at: eddservices.edd.ca.gov.

2) **Ministerial employees** are covered by the Self-Employment Contributions Act (SECA). As self-employed persons, ministers are responsible for ensuring they are in compliance with SECA by making quarterly remittances for social security. The local church normally pays the OASDI amount to the pastor as a supplemental amount at the end of each quarter. Churches calculate the SECA amount as follows: ministers quarterly salary total + ministers quarterly housing expense total + ministers quarterly utilities expense total + the OASDI amount = the base amount. Multiply the base amount by 15.3% to arrive at the quarterly OASDI amount. The supplemental amounts paid to the minister as OASDI must be included in the W-2 as part of total wages at the end of the year.

13. Church Insurance be provided with the following considerations:

 - 2) If there is a deficit in the income necessary to meet the total monthly budget, the board should seek ways and means to care for any emergency deficit each month. The pastor should monitor the local budget and complete a quarterly review in consultation with District leadership to resolve indicated financial problems.
 - 3) In the planning of the local budget, items such as social security reimbursement, health insurance, auto reimbursement, housing allowance, utilities, and other benefits should be listed separately from the stipulated cash salary of the pastor.

- F. churches receive an annual offering for Nazarene Bible College & Nazarene Theological Seminary
- G. remuneration for pulpit supply and evangelists should include: an honorarium; full care for travel expenses; housing, and meals. For evangelists, if applicable, pay an amount at least equal to the pastor's weekly salary, including housing and benefits, and a love offering. If requested by ministerial evangelists, designate a portion of the compensation as 1) housing allowance, and 2) a preferred retirement fund.
- H. the District Advisory Board annually bring recommendations on the District Superintendent and District office staff's financial packages to the District Finance Committee.
